December 23, 1968

Mr. N. W. Hendry, General Sales Manager
Johns-Manville Asbestos Limited
P O Box 1500
Asbestos, Quebec

Dear Mr. Hendry:

A few months ago you sent through a notice advertising that a caution label suggesting certain health hazard would now be a standard part of your asbestos packaging. In view of continued publicity relating to the handling and exposure to asbestos dust it would seem desirable to have a Johns-Manville representative familiar with the subject prepare to discuss at length, exactly what is involved and what, if any, precautionary measures Hooker might adopt. Will you please advise when might be a convenient time to arrange a meeting here at Grand Island.

Very truly yours

HOOKER CHEMICAL CORPORATION
