

FORD MOTOR COMPANY

- A. The Eaton 15 x 4 steer axle cam brake for the Ford 7,000 lb. and 9,000 lb. steer axles will be available at a N/C option during the fourth (4th) quarter of the 1983 calendar year. Final timing will be advised as soon as known.
- B. The Eaton 15 x 4 steer axle cam brakes for the Ford 12,000 lb. steer axles will be available as a N/C option beginning May 1, 1983.
- C. The ESA-541-LW 16.5 x 7 cam brakes will replace the ESA-541 cast spider brakes in conjunction with Ford Motor Company's 1984 model year change (August 9, 1983).

Special Notes

- 1. The Ford order form will not be changed. When the box marked Eaton is checked or circled for the drive axle brakes, your (T.C.M.) customer will automatically get the Eaton steer axle brakes, as per the aforementioned timing-availability.
- 2. Eaton Brake Division steer axles are currently not available at Ford Motor Company. Will advise if this situation changes.

REMEMBER!
