

EVERY ROOM IN A MODERN HOSPITAL

...deserves a Dutch Boy
quality painting job

PAINT made with Dutch Boy answers every hospital decorating need. Its established high quality recommends its use whenever beauty and permanence must be combined in hospital decoration.

Moreover, the use of Dutch Boy makes for standardization and its resulting economies. With Dutch Boy White Lead, flatting oil and a few tinting materials, it becomes a simple matter to obtain the exact color and finish for a room to be decorated or repainted.

You may also have discovered that Dutch Boy is extremely adaptable . . . that it can be used for painting every type of surface—wood, plaster, wall-board, fabric, masonry, or metal. It can likewise be used to obtain many different finishes . . . flat and eggshell . . . undercoatings for enamels . . . mottled or figured effects . . . and many others.

Equally important as any of the above advantages is the washability of paint made with Dutch Boy. It can be washed repeatedly without injury to the surface.

In view of all these points of superiority, it is only natural that Dutch Boy should have an enviable reputation for high quality among leading hospitals.
