Re: City of Bloomington v. Westinghouse Electric Corp.
S.D. Ind. No. IP 83-9-C

Dear Sirs:

I have reviewed the transcript of my deposition, taken on June 25-26, October 15-16, and November 25, 1986, and wish to make the following changes to correct errors in transcription or errors in my testimony:

June 25, 1986

Page	Line	
11	10	"1977" should be "1976"
20	4	"Lyon" should be "Lion"
22	15	
59	9	"Benignus" should be "Bergen"
87	12	"Live" should be "Life"
104	16,17	"L 306" should be "PL 306"
111	2	"An examination" should be "a contamination"
119	12	Delete "But not --." Should read "Yes. The sloppiness ...."

STLCOPCB4030892

135	8	"Medical research" should be "Analytical chemistry research"
145	16	Add "Except it was sent to Findett, not to Monsanto."
202	19	Answer should read: "That was my understanding then. My understanding now is that dioxins are not generated from burning PCBs."
205	23	I understood the question to refer to Monsanto, not Westinghouse.
212	19	Answer should read: "That is one facet of control exercisable by a person who has the scrap." (This clarifies my understanding ambiguous reference to "you" in line 16 of the question.)
215	22	Answer should read: "Yes. Monsanto felt no one could control the end product disposal." (This clarifies my understanding of the ambiguous words "you" in line 17 of the question.)
216	9	Add to answer "This was because users could not control usage and insure against escape to the environment." (This clarifies my understanding of the ambiguous word "you" in line 3 of the question.)
217	16	Answer should read: "Yes, Monsanto continued sales if users could capture and recycle, destroy, or store the waste and no acceptable alternative was available. That is important." (This clarifies my understanding of the ambiguous word "you" in line 11 of the question.)
218	1	Answer should read: "That's right. Monsanto would continue sales only where users could recover the waste for processing, destruction, or proper landfilling." (This clarifies my understanding of the ambiguous word "you" in line 20 of the question.)
228	11	"garage" should be "garbage"
269	11	Answer should read: "Right. Monsanto continued selling to certain applications where users could control the release of

		PCBs into the environment." (This clarifies my understanding of the ambiguous "you" in line 5 of the question.)
276	24	Answer should read: "No. I could only tell if it was releasing more ...."
282	13	Should read: "low parts per million would not concern me."

June 26, 1986

330	2	"move" should be "more"
347	24	"degrees had" should be "degreased"

October 15, 1986

498	6	"dioxin, furans, yes" should be "PCQs and furans."
498	12	Should read: "This is one source for furans under certain conditions."
499	13	delete "dioxins and"
513	14	"years" should be "weeks"
516	20	"Rahl" should be "Rall"
525 526	7 to 13	This testimony was erroneous as to auditing of PCB testing and was corrected at pages 874 - 877.
533	5	"Whitman" should be "Widmark"
549	6	"Q" should be "A" (This line is part of the question, not my answer.)

October 16, 1986

627	16	Should read: "I never heard of 'Donovon' Gordon. I heard of 'Don' Gordon."
657	2	Should read: "I didn't use it prior to Mr. Mason's presentation."
684	4	"layers" should be "lawyers"

700	19	Should read "All those recommendations except, perhaps, incineration. It is a ..."
773 775	9 to 22	This testimony was erroneous as to auditing of PCB testing and was corrected at pages 874-77
816	22	"And" should be "In"

November 25, 1986

909	4	"participant" should be "participate"
1029	11	Answer should be "1970 or 1971." Reason for correction: Subsequent to the deposition I have discovered that the report of low ppb levels in effluent, the timing of which I could not remember (page 1031, lines 21-23), was dated May 7, 1971 (Dep. Ex. 144). Therefore, my testimony that dissatisfaction extended beyond that date was in error.
1042	5	Answer should be "No. By the time Mr. Corey became my supervisor I had already received the low ppb effluent analysis from Bloomington to which I previously referred." See explanation above.
1042	8, 12, 15	These answers are incorrect and the questions are inapplicable due to my error in the previous answer at line 5.
1048	16	"industry -- that Monsanto replacements" should be "the industry notified Monsanto that replacements"

I am signing the signature page of the transcript on the assumption that the changes above will be made.

Thank you for your assistance.

Very truly yours,

William B Papageorge
