Ryan,

Thanks for your time today. It was great seeing you and to have some time to actually chat. Here is the letter I referenced as we were leaving. Is there is someone you can point us to to work with on this? Thanks again for all your help.

Stratton

Subject: Letter on Emergency Exemption

Ryan,

Attached is a letter to Administrator Pruitt from one of my clients, Allied BioScience, requesting an Emergency Exemption to use their technology in hurricane cleanup. Their technology is currently in the registration process at EPA and cannot be commercially available until that process is concluded. A hard copy is in the mail, but I know that will take a while to come through. Let me know if you have any questions as I'm happy to talk more about this issue. I hope the dove hunt was a great time, as I'm sure it was. Talk to you soon.

Stratton
