

A little touch of paint here and there will make a thousand-dollar home out of an eight-hundred-dollar "tumble-down" house. Our booklet, "Paint Points," tells how to use paint and what varieties of paint to use for different surfaces. Write to-day for a free copy.

There is no reason why the little things about the house should be shabby, murred and scarred, any more than the grand piano. Sherwin-Williams' Enamel Paint is the best home paint for furniture and decorative work. It goes further, looks better and lasts longer than any other paints. Open the can and it's ready for use.

Sherwin-Williams Paints are made by the largest and best paint and color manufactory in the world. A different paint for each surface—not one for all. That's the secret of paint-success. One paint for barns, out-buildings and fences—another for furniture and decorative work—another for painting on metal—and another for painting on floors. All the "best."

TEN dollars' worth of paint judiciously distributed adds \$200 to the selling and \$500 to the "living in" value of a \$1,000 house. Our booklet, "Paint Points," tells how and where to use paint in the home and what kinds to use for different purposes. Write for a free copy to-day.

It pays to have painted floors. It saves work, worry and money. The Sherwin-Williams Special Floor Paint is the best floor paint. Made to paint floors and nothing else. Made for home use. Doesn't crack, blister or peel off. Gives a hard, glossy surface—flows smoothly—dries quickly—ready to use. Covers more surface—wears longer—and looks better than any other paint. Over 10,000 dealers handle The Sherwin-Williams Paints. Different and special paints for different surfaces—not one slap-dash mixture for all.

SHERWIN-WILLIAMS PAINTS AND VARNISHES

SHERWIN-WILLIAMS PAINTS & VARNISHES

All of the surfaces in the world requiring paint are owned by somebody. It is these owners—who have made it possible for us to become paint and varnish makers in the world. Whether they buy, influence the buying or who buys, they pay for the treatment and just. Every drop of Sherwin-Williams Paints for the past forty years, been sold as the right for the particular surface to be treated. They become the largest makers of paints and varnishes on this basis and with millions of surface owners claims, is the best answer to the question, "What Paints and Varnishes?" Write for free booklet.

In beautifying your home and the things that go into it by means of paint and varnish, look to durability as well as to a pleasing and harmonious effect. With Sherwin-Williams' Paints and Varnishes you can secure not only the exact colors and finishes desired but also sufficient durability to maintain for years the artistic results obtained. The time of the painter is expensive (usually twice the cost of the material); hence the economy of using only the best paints and varnishes, to put off the necessity of refinishing the longest possible time.

To help you select the right paint or varnish for whatever purpose you have in mind, we will send you free a booklet entitled "Paints and Varnishes for the Home." It tells just what you need and how to carry out the work.

SHERWIN-WILLIAMS

PAINTS & VARNISHES

The first thing to know about paints and varnishes is that house paint will not do for freight cars and that piano varnish will not do for floors. This is true of all surfaces—each requires a different treatment. You can no more get good results from a finish made for all surfaces than you can be cured of all diseases with one medicine—beware of the paint or varnish that is recommended for all kinds of purposes. Your problem is to find the paint or varnish best suited to the surface you wish to cover. We have worked out this problem for everyone—for every surface. The right quality in our products protects and beautifies longest the surface for which each is intended. This right quality has made us the largest manufacturers of paints and varnishes in the world.

"Who Makes the Best Paints and Varnishes?" is the name of a free booklet which answers the question. Write for it.
