Dear Dick,

Re: Cancer Epidemiological Survey
Q.A.M.A. (Canada).

I acknowledge receipt of yours of the 20 December.

Enclosed cheque \$20,000.00. I reciprocate your good wishes and congratulate you upon your fine talk at the last I.H.F. Meeting and on the colorful and enlightening retrospective presentation of the work done the day before (in committee). This is a good innovation and was appreciated highly. I regret having been unable to see more of you this time.

Could you kindly extend to Mrs Walmer my respectful compliments for 1957. She was a most distinguished hostess at this buffet hour at your home in 1955 and Dr. Vital wishes me to tell you once more his personal pleasure and satisfaction at being there.

Yours cordially,

Enclosure
cheque \$20,000.00
