Meeting w/TRCP

I was hoping at this meeting, we could talk about how programs like WaterSMART, the Emergency Drought Relief Act, and other Interior efforts affect habitat and flows especially on the Colorado River but also throughout the West. We thought it would be useful to:

- introduce ourselves and our priorities,
- describe how we're working with partners here, including states, water users and other NGOs,
- highlight some areas where we expect to support the new administration, and
- talk about opportunities we think the new administration has to improve water security, infrastructure and recreation.

We have some budget letters and fact sheets to share, also.

Your colleague offered me the 10:30 - 11 slot on the 3rd. I have a flight out of DCA at 1:20, so would need to leave Interior by noon, but am available anytime that morning. We could also meet either Wednesday or Thursday afternoon after 4, but I think maybe she said he's out those days.

Thanks, Melinda
