

As Westlake's evaluation of the requirements under the HON rule progresses and we continue to develop our compliance plans, Westlake may have additional detail or more concrete information related to the technical challenges, time required, and costs for coming into compliance with the HON rule. Some of that more detailed information may include confidential business information which Westlake would be willing to provide under the appropriate protections for such competitive and trade secret information. Please contact Susan Newman at snewman@westlake.com should EPA or the President require more detailed information about specific impacts to Westlake's Deer Park Plant.

Thank you for the timely consideration of this request.
