Subject: Next Steps re OX513A

Nancy,

Good evening. I hope that you are doing well. I realize that you are on travel, but am leaving this message in the hope that Tom, Jack, and I might be able to get on your calendar for a call to discuss next steps re OX513A, and share ideas on moving forward.

Intrexon is, of course, very pleased that jurisdiction has finally passed over to EPA. Regulating insects that are being released to cause significant population suppression of pest insects clearly is a function that should be handled by EPA.

Tom is in London this week, but can make any time that is convenient for you work, as can I. If it would be better for me to work with Venus to find an opening on your calendar, I'd be pleased to do so. Just let me know what you'd prefer.

Look forward to speaking with you.

Best,

Keith
