FOR IMMEDIATE RELEASE

NEW YORK, SEPTEMBER 30, 1963 - The appointment of Oscar P. Muller as assistant to the general sales manager has been announced by Titanium Pigment Corporation. Mr. Muller has been an assistant sales manager for National Lead Company's paint division since 1955.

Mr. Muller has had extensive technical and sales experience in the protective coating industry. Prior to joining National Lead Company as a research chemist at the Brooklyn Research Laboratories, he had been engaged in research and production in the protective coating and resin fields for ten years. Mr. Muller was named head of National Lead's oil and resin research department in 1950 and in 1951 he became production supervisor for oil and resins at the Philadelphia plant.

Mr. Muller received his degree in chemical engineering from the University of Vienna. He is a member of American Chemical Society, American Oil Chemists Society, and American Society for Testing and Materials. He is also a member and former director of New York Paint, Varnish and Lacquer Association.

Mr. and Mrs. Muller reside at 40 Park Avenue, New York City, and also at Patridge Lane, Candlewood Isle, Connecticut.
