

C. Not Recommended

The *Rymplecloths* were marked with their size before processing, which is misleading as their actual size was approximately 25% less.

Sleekies (The Sitroux Co., 468 Fourth Ave., N.Y.C.; distributed by S. S. Kresge & Co.) 5c per yd., 33 in. wide. Thread count 18 x 12. Bursting strength lowest of cheesecloth samples tested. A trace of lint. 1

Wards Polishing Rymplecloth (Montgomery Ward retail stores) 8c per yd. Unbleached. Thread count 17 x 11; when held taut 14 x 9. Bursting strength lowest of all samples tested. Only 26 in. wide, which would make cost on basis of 36-in. width comparable with other samples, 11c per yd. Some lint. 2

Kendall Absorbent Rymplecloth (Kendall Mills, Walpole, Mass.) 11c per yd., 26 in. wide. (15c per yd. on 36-in. width basis.) Unbleached. Thread count 16 x 13; when held taut, 14 x 9. Bursting strength very low. Some lint. 3

CR receives many requests for assistance in the preparation of articles and talks about consumers, the consumer movement, and Consumers' Research. In order to meet this need, we have assembled a number of collections of papers, mimeographs, clippings, etc., on the subject, which are available for loan. The material is available for a two-weeks' period to any subscriber, or to anybody introduced or endorsed in writing by a subscriber, upon written application. Requests for the loan should be accompanied by a deposit of \$4 (to assure the return of the material, complete and in good condition, within the time limit), all of which charge, except sufficient to cover CR's outlay for postage, will be refunded upon return of the material to CR in good order.

In making requests for material of this sort, please specify in as detailed a manner as possible the subject to be discussed and the particular aspects of it which are of particular interest or which will be considered most fully in the article or paper.

Abridged Cumulative Index of Previous 1944 Issues Consumers' Research Bulletins

	Month and Page
Annual Cumulative Bulletin, 1944-45, now ready.....	Oct., 11
Arms and ammunition.....	Oct., 11
Aspirin, extensive use to be avoided.....	June, 3
Automobiles, coming new models, minor changes for.....	Oct., 4
Automobile parts, used, price ceilings affect supply.....	Aug., 3
