George ... Sacramento ... for a time ... and Friday ... as a huge crane ... covering high ... above street ... and ... most buildings ... unloaded ... mammoth steel girders ... in the new Levee's store construction ...

In a two-day operation the designer, he's a crusader like his friend Ralph Nader. He's been hoisted into position in television because he believes for bolting into place as the it's the greatest communication man has ever known and he wants to use it. This section is scheduled for completion in November ...

After the Christmas holidays the final western section of the old fight hard enough to get old Levee's store will be razed and stop killing himself with for the third phase of the food he eats the air and rebuilding it will comprise waters he pollutes the three all new selling floors plus automobiles in drives which an enlarged excavated base Bloch says are medieval in ment to be used for the receive design storing and shipping of goods

A unique plan of operation elongated scoutmaster and in was set up for the two-year essence that's what he is with period of reconstruction by the human race as his troop which Levee's could remain it advanced medicine is his open for business while tearing primary concern there is no down the old store and building area of man's actions in which anew from the ground up. By he is not deeply concerned. He's a series of relays the store angry in instance that there has been able to stay open to has never been a Negro astronaut ... one of his time. All departments formerly stories for the series. A small housed in the central section Step for Man, which deals with were moved into the new three the diagnosis and treatment of floor eastern segment which a critically ill astronaut in lunar was opened last fall. The store orbit 240,000 miles away his has since been operating in two astronaut is black separated buildings so that the Bloch heads his own consulting firm in human factor torn down and completely engineering which involves rebuilt him in everything from space

As soon as the new section is ready for occupancy the necessary doubling up of space will end and departments which have been sharing space with others will be able to expand into their final permanent quarters. Those which have been making do in temporary quarters will be opened in their own handsomely decorated, spacious new areas.

Some additional new departments will be added. These include a beauty salon and bridal shop, yardage and pattern department and others.
