Before 10am EDT and after 3pm on Thursday is good for me. Also, Friday is good. Next week I'm out of the country, back on July 30.

I just got back from vacation and should be available most of the rest of this month.

I can always be reached on my cell phone.

If you give me some idea of times you are considering then I can let you know what works for me and what does not work.

Subject: Shanghai Health Study - QA/QC

Tony,

Attached are the documents we discussed last week.

- 1) The QA/QC Team Charter
- 2) The QA/QC process outline drafted by Judy Baldwin
- 3) The first report of the QA/QC Team by Dr. Jerry Rice
- 4) The most recent semi-annual report from Dr. Irons. It provides significant information on the size of the study population.

I am copying Gail Jorgensen to alert her to the fact that the sponsors are negotiating with Pharm-Olam to provide QA assistance to the Shanghai Health Study.

Gail - Tony is trying to gain an understanding of the scope of work for our study. We had a phone call with Judy Baldwin last week and she suggested we do the same with you. Because Tony is on international travel the week of July 23 until August, please contact me and I can set up a conference call (~1 hour) as soon as possible.
