Attached is a summary of the 10/27/76 meeting of EIA's PCB Ad Hoc Committee on EPA's 307(a) hearings.

Two notes of concern are:

1. The Mobil Oil Epidemiology Report has been proposed for introduction into evidence.

2. Per Covington and Burling's lawyer - M Clear, EIA witness - Dr. Wolfgang Mueller has also done some monkey studies and report that Aroclor 1016 cause some damage at 5 ppm. Dr. Mueller is presently working at New Mexico University.
