Dear Mr. Ciobanu-Dordea

With the attached letter and position paper, [RECHARGE](#) – the leading European industry association for advanced rechargeable and lithium batteries, respectfully asks the Commission for a swift decision on the PFAS restriction proposal to exclude batteries from the restriction, and thereby protect investments in the EU Batteries Industry.

On this issue, we would also like to request a meeting with you and your colleagues at your earliest convenience to discuss our position paper and how we can achieve such a swift decision.

Please see the attached letter and annexed RECHARGE position paper describing the current battery value chain concerns on the impact of the PFAS restriction proposal on our industry and society, as well as the need for an urgent decision.

Kind regards

[REDACTED] – on behalf of [REDACTED]
