ANSWERS

Gleason Corporation (hereinafter referred to as "Gleason") has made a good faith effort to responsively address plaintiffs' discovery to which objections have not otherwise been filed. For this reason, Gleason, relying upon information collected from various sources, including information recently identified. Defendant's exploration of its prior operations is continuing and these responses amend and supersede any previously filed responses to discovery in this and any other jurisdiction. Defendant does not purport to have adopted or applied any definitions set forth at the outset of or at other places in plaintiffs' discovery nor has it assumed the improper, unproved and hypothetical facts or accepted the terminology or substance of plaintiffs' claims incorporated in, implied or alluded to within this discovery.

Due to the broad and diverse nature of Gleason's

operations and business, these answers are limited to Gleason's operations involving the manufacture and sale of Gleason machinery which operations appear to be the basis of the claims asserted.

General Objections

1. Gleason objects to Plaintiffs' Discovery on the grounds that it is overly broad, unduly burdensome, seeks information which is not relevant to Plaintiffs' cause of action, and seeks information which is not reasonably calculated to lead to the discovery of admissible evidence. Without waiving this objection, and subject to any additional objections herein, Gleason provides its Answers herein.

2. Gleason objects to Plaintiffs' Discovery to the extent that said Discovery seeks information protected by either the attorney-client privilege or the work-product doctrine. Without waiving these objections, and subject to any additional objections herein, Gleason provides its Answers herein.

3. Gleason objects to Plaintiffs' Discovery to the extent that it seeks information that is not within the custody or control of Gleason, is otherwise within the public domain, or is otherwise equally or more available to Plaintiffs than to Gleason. Without waiving this objection, and subject to any additional objections herein, Gleason provides its Answers herein.

4. Gleason objects to Plaintiffs' Discovery to the extent that it asserts and/or assumes unproven conclusions as established facts. Without waiving this objection, and subject to any additional objections herein, Gleason provides its Answers herein.

5. Gleason objects to Plaintiffs' Discovery to the

extent that it assumes the truth of the allegations which are in dispute in this litigation and/or makes incorrect and/or untrue assertions, and/or assumes unproven conclusions as established facts. Without waiving this objection, and subject to any additional objections herein, Gleason provides its Answers herein.

6. Gleason objects to Plaintiffs' Discovery to the extent it seeks information regarding Gleason's sales of any asbestos-containing products to any entities other than those specifically identified as being in the chain of distribution of products to which Plaintiffs allegedly were exposed, or to any employers or job sites other than any employers or job locations that Plaintiffs specifically identified as employers and job locations at which Plaintiffs allegedly were exposed to asbestos-containing products. Without waiving this objection, and subject to any additional objections herein, Gleason provides its Answers herein.

7. Gleason objects to Plaintiffs' Discovery to the extent it requires Gleason to identify any product either sold or manufactured by Gleason which may have contained asbestos or components containing asbestos when: Plaintiffs have failed and/or refused to specifically identify any product either sold or manufactured by Gleason to which Plaintiffs claim exposure; Plaintiffs have failed or refused to identify any locations and/or job sites at which Plaintiffs claim exposure to any products sold or manufactured by Gleason or Plaintiffs have failed or refused to identify any time periods during which Plaintiffs claim exposure to any products sold or manufactured by Gleason. Without waiving this objection, and subject to any additional objections herein, Gleason provides its Answers

herein.

8. Gleason objects to Plaintiffs' Discovery to the extent that it seeks to require it to provide information other than that which may be obtained through a reasonably diligent search of its records.

9. The responses made herein are made without in any way waiving or intending to waive, but on the contrary intending to reserve and reserving: (1) the right to object on the grounds of competency, privilege, relevancy and materiality, or any other proper ground, to the use of any such information, for any purpose, in whole or in part, in any subsequent step or proceeding in this action or any other action; (2) the right to object on any and all grounds at any time, to any other discovery procedure involving or relating to the subject matter of Plaintiffs' Discovery; and (3) the right to supplement these answers should additional information be discovered.
