FROM J. Murry Davis *JMD*

SUBJECT Safety Meeting

At 7:30 A.M. on Thursday, October 10, 1974, a safety meeting was conducted by the writer and Dr. Lovejoy to discuss VCM and VDCM with production employees from the Organics Area and Shipping Department. They were informed of the results of the biological, personnel and area monitoring that has been done. Dr. Lovejoy reassured them that there has been no physical problems detected that would indicate over exposure.

They were told of the new permanent VCM Standards and were asked to help us meet these standards by good operating procedures. Respiratory protection was discussed.

During the meeting the possible hazards of VDCM was briefly discussed and they were asked to take the same safety precautions while handling it as they do with VCM.

The following is a list of those present:

Samuel Bourgeois, Jr. - 472
Jack R. Hosea - 745
Jessie Crochet - 442
D. N. Bunderson - 625
G. T. McDonald - 726
E. McLendon - 528
Lionel Valentine - 755
R. W. Moses - 624
L. Winey - 337
W. V. Denton - 191
A. S. Jenkins - 182
L. H. Fontenot - 1449
G. A. Bedenbaugh - 1418
H. Mc [redacted]
C. J. LeBlanc - 92

[redacted]
W. B. Tyson - 381
[redacted]
[redacted]

D. W. Main - 35
Glenn Work - 1209
David Miner - 1289
Boyd Alleman - 1210
Don Anderson - 762
R. [redacted]
C. [redacted]
R. [redacted]
[redacted]

R. H. Miller - 1282
