Confirming our discussion we would appreciate your help in initiating and obtaining the following information on Therminol 55 and 66 for use in response to customer questions.

1. Feeding studies - may we use the information from W. H. Hunt's September 15, 1971 letter as shown or do you prefer any revisions.
2. Biodegradability information.
3. Chemical Oxygen Demand
4. Biological Oxygen Demand
5. A statement regarding the products of decomposition of these fluids.

J. J. Roder
