Re: Mr. Thomas L. Geller

Gentlemen:

Enclosed is a copy of a letter from Mr. Geller dated February 11, 1981 addressed to our company.

You will note that Mr. Geller is concerned about his exposure to Monsanto PCBs while he was employed in our West Bend Company plant in West Bend, Wisconsin. He states that Monsanto assured him that "the materials were inert and harmless". We would appreciate receiving copies of any publications issued during the time period in question (late 50's - early 60's) which would relate to such assurance.

I am looking forward to your comments and recommendations as to what advice we should give Mr. Geller.

Very truly yours,

Carl F. Massopust
