Q Where do you practice pathology?

A In Bremerton, Washington, which is a small city about 20 miles across Puget Sount, Seattle.

Q Do you live in the Seattle area?

A I live in Seattle.

Q How long have you been a pathologist, Dr. Hammar?

A Approximately 25 years.

Q You mentioned Diagnostic Laboratories?

A Yes.

Q Is that your laboratory?

A Yes.

Q What type of laboratory is it, and what is the purpose of it?

A It is a specialized laboratory. We do specialized testing in pathology, primarily diagnostic tests using an electron microscope, diagnostic tests using a type of procedure referred to as immunohistochemistry, and I evaluate as a consultation-type pathologist a great deal of lung cases that are sent to me by other pathologists, and
