Subject: Your Order MF 51140 (MUS 256)

Gentlemen:

I am returning subject Purchase Order asking for drawings of two brake blocks and additional 1973 catalogs.

Johns-Manville Corporation was a most valued member of the Friction Materials Standards Institute for many years. However, Johns-Manville discontinued their membership as of June 30, 1973 since they discontinued operations in the brake lining and clutch facing fields. I am only permitted to sell prints and catalogs to members. I took exception on a few occasions with Johns-Manville and sent some catalogs after June 30 because of the lateness of our printing. However, I can no longer provide Johns-Manville Corporation or Johns-Manville Internation Corporation with prints or catalogs.

I would like to point out that Johns-Manville Corporation has continued in the railroad brake friction materials business and, because of this, they would be eligible for membership. Also, since Johns-Manville had formerly been a member in good standing they could be reinstated without an initiation fee. If someone in Johns-Manville International Corporation is interested in resuming membership, I would be happy to give them instructions on how to go about this.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

Dear Ed:

First of all, I want you to know that I was very happy to hear from you, and I wish I had a definite answer to your question. I don't think the 1600 series for off-the-road equipment is ours. J-M was using the 1900 series and toward the end a few 2000 series for off-the-road equipment.

However, if there is any particular 1600 number you are interested in, let me know and I will try to find out the size, etc. I can't promise any definite answer, but it may be possible.

Kindest personal regards,

S. V. LUKAS
District Sales Manager

August 21, 1973

Mr. S. V. Lukas
Johns-Manville Corporation
22 East 40 Street
New York, N. Y. 10016

Dear Stan:

I have had some questions lately concerning off-road and machinery numbers assigned by the Friction Materials Standards Institute. In particular, we have a 17,000 Series which includes many conical shapes, cylindrical sections, large segments, and other non-automotive types. I still assign numbers in the 17,000 Series when I have a particular off-highway application.

However, I have been asked concerning an FMSI 16,000 Series of numbers. I actually have no records in the office concerning a 16,000 Series, but I am wondering whether Johns-Manville might have taken a block of numbers back many years ago and used them for military and/or industrial applications. Do you have any information on a 16,000 Series of numbers? If you do, I would appreciate whatever information you can give me.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

Johns-Manville Corporation
Greenwood Plaza
Denver, Colorado #80217

Dear Mr. Schenck:

This is to reply to your 8/9/73 form letter request for additional information concerning our invoice #1109 of July 25, 1973.

The invoice should have been placed on Johns-Manville International Corporation.

The purchase order was their number MF-51076 placed by Mr. R. M. Demarest. (Order dated February 2, 1973).

We were directed by your Mr. P. J. Murray (303-770-1000, Ext. 303) to ship freight collect to Johns-Manville International, %D.F. Young, 73-25 Woodhaven Blvd., Glendale, Queens, New York.

These 200 books were shipped by Navajo Trucking, on June 29, 1973.

Per the invoice copy attached, would you please forward the necessary papers to the Disbursements Section that will pay us the $56.00 balance.

See copies attached:

(1) Your letter of 8/9/73
(2) Copy of our invoice 1109
(3) Copy of Johns-Manville International Purchase Order MF-51076.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

Paramus, New Jersey 07652

Dear Sir:

We are returning your request for payment because it does not contain sufficient information to identify our debt.

In our corporation, we do not have centralized purchasing or centralized accounts payable.

Invoices are paid after an authorized employee signs that he has received the service or the material in good order.

Please furnish as much information as you can as to:

Who - name of ordering employee and location
What - type of material shipped or service rendered
When - date of our request - our order number if any
Where - our location receiving material or service
(and person signing for it if any)

Any invoice (a duplicate if overdue,) should be sent to the person ordering the material or service unless you have our purchase order number. If you do, the invoice should be sent to our Accounts Payable Department. We are not permitted to pay on the basis of statements.

Yours Truly,

J.C. Schenck

Dear Ed,

Enclosed is our check to pay, in full, the Johns-Manville annual fee for the July 1, 1972 to June 30, 1973 fiscal year.

Let me assure you the delay in remitting was unintentional as divesting of a business is new to me and at times is somewhat disjointed to say the least.

Since we are a member in good standing until the end of June and the annual meeting is being held at the Lodge at Vail, Colorado, I would appreciate your keeping me posted as to that meeting. I would like to plan to attend so I may say goodby to my friends and perhaps partake in a little golf.

Again, I would like to thank you for the many courtesies extended to Johns-Manville, and we will always cherish our association with the Institute.

Sincerely,

Pat

Dear Pat:

I have your letter of March 27, 1973 and the check which you enclosed. Thank you.

As regards the meeting, it will be held this year at the Lodge at Vail, Vail, Colorado. It is scheduled to start on Monday, June 25, with departures scheduled for Thursday, June 28. The actual Membership Meetings will be held on the mornings of June 27 and June 28. I would imagine there would be a lot of golfing on Tuesday, June 26 and Wednesday afternoon, June 27.

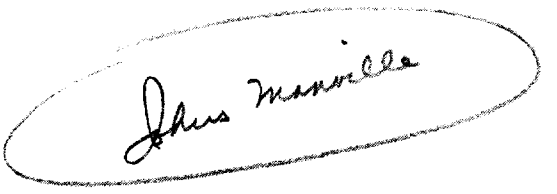

When I have the data ready for reservations, I will send along the requests for reservations to you. I will look forward to seeing you in Vail this June.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

March 19, 1973

Mr. T. P. O'Hagan
Johns-Manville Sales Corporation
Greenwood Plaza
Denver, Colorado 80217

Dear Pat:

This is a follow-up to my January 25, 1973 letter concerning the annual fee for the July 1, 1972 - June 30, 1973 fiscal year.

With the many changes that have taken place at Johns-Manville, perhaps our earlier letter did not reach you. I've attached a copy of this January 25 letter. It would be appreciated if you could either:

(1) Make arrangements to pay the $1,500 balance of the 1972-73 dues, or

(2) Advise who I should contact at Johns-Manville, if this is no longer your responsibility.

While I am most reluctant to play the role of bill collector, the Board of Directors has directed me to pursue collection, in line with our Constitution. If there are any questions, please give me a call.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE, INC.

Johns-Manville

January 25, 1973

Mr. T. P. O'Hagan
Johns-Manville Sales Corporation
Greenwood Plaza
Denver, Colorado 80217

Dear Pat:

Thank you for your letter of January 9, 1973. We, of course, had been aware that Johns-Manville was discontinuing its friction material line. While your letter was no surprise, we regret losing a long time member who contributed so much to the Institute.

Per our phone conversation, I indicated that Johns-Manville could continue using the copyrighted FMSI numbers on their linings, packages, price lists and literature until your finished and in-process inventory is sold.

I do have a problem as regards your resignation. Please see our Constitution, Article IX, Section 5, entitled "Cessation of Participation:"

> Any Member, Regional Member or Licensee may withdraw from participation in the Institute at any time upon payment of its annual fees for the current fiscal year and all rights to participate shall cease as of such date.

I've just recently had this problem with another Active Member concerning the annual fee for the July 1-June 30 fiscal year. I am enclosing the Johns-Manville statement as of January 1, 1973. The annual dues are $3,000, which ordinarily are due in installments in July 1972 and January 1973. When Johns-Manville remits the remaining $1,500, the resignation per Article IX will be in order.

I trust you will understand that as Secretary I have to work within the framework of the Institute's Constitution and By-Laws. My personal best wishes to you, Carl and the others at Johns-Manville.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

Dear Ed:

It is with regret that Johns-Manville Sales Corporation must resign its membership in the Friction Materials Standards Institute. The decision to discontinue our Friction Materials operation will terminate a long association with our many friends in the industry.

As discussed with you, we will wish to continue to use the F.M.S.I. numbers until our in-process and inventory stock is depleted.

I would, on behalf of our company, like to thank you, the Board of Directors and your staff for the many courtesies rendered to Johns-Manville.

Our best wishes for continued success, I remain

Very truly yours,

Dear Miss Richardson:

In line with your November 6, 1972 letter, I am soliciting orders for your 1,000 Brake Shoe Identification Catalogs from other Members.

Assuming I receive orders, I will ask you to ship from your stock to those ordering. I am asking that you ship per my instructions, billing the Institute for the Catalogs and the freight. (I, in turn, will bill the Member placing the orders.)

The final price for the Catalogs was $188.50/M (includes punching). Please bill me at that price when I order from you.

If past demand is any indication this may require 3 or 4 shipments.

I will contact you as I receive orders.

Sincerely,

Dear Carl:

This is a follow-up on the Cricket clutch facings on which we have corresponded over the past month.

In my August 17 letter I indicated to you that I was searching for information on the 7-1/2" OD x 5-1/8" ID x .125" thick (20 holes) Spicer facing. I have secured the attached print from Great Britain and assigned facing FMS #781. I believe this is the facing that goes with the Cricket in the sizes you indicated. In my earlier letter I had indicated that FMS #778 was the Borg & Beck facing for the Cricket.

If there are any problems with these assignments please let me know.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

Dear Carl:

This concerns the Cricket clutch facings about which you inquired a few weeks ago.

The 7-1/2" OD x 5-3/4" ID x .125" thick (16 holes) is our clutch facing FMS #778. I have confirmed this assignment over in Britain.

As regards the 7-1/2" OD x 5-1/4" ID x .125" thick (20 holes) Spicer facing, we are still searching for information on this and will forward it to you when received.

New York, N.Y. 10016

Dear Pat:

I received the attached order for brake linings, addressed to Johns-Manville Corporation, c/o Friction Materials Standards Institute. Apparently this company picked your corporate name from our FMSI Catalog.

Without getting into the details of the letter, I am not exactly sure how they are ordering. It is almost as if they are specifying short arcs and long arcs.

Could you pass this on to your International Division or whoever else would handle such an order.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

E. W. Drislane

Gentlemen,

We, hereby, place firm order for the undermentioned items for which you are requested to send us a proforma invoice C&F Lattakia:

Size	Qty (Pces)	Qty (Pces)	Size	Qty (Pces)	Qty (Pces)
1 3/4x3/16	200 24cms	200 30cms	1 3/4x1/4	100 24cms	100 30cms
2 x3/16	600 "	600 "	2 x1/4	300 "	300 "
2 1/4x3/16	150 "	150 "	2 1/4x1/4	100 "	100 "
2 1/2x3/16	400 "	400 "	2 1/2x1/4	200 "	200 "
2 3/4x3/16	500 "	300 "	2 3/4x1/4	100 "	100 "
3 x3/16	300 "	300 "	3 x1/4	100 "	100 "

It would also be appreciated if you would airmail to us your comprehensive catalogues of all the products you actually manufacture together with your covering price lists, as we may, under the light of your catalogues, increase this order to your satisfaction.

For your guidance, we are specialised in this line. Please, therefore, consider this order as a trial, which would, undoubtedly be followed by more important orders.

While awaiting the pleasure of hearing from you soon and thanking you in anticipation,

We remain, Dear Sirs,

Yours faithfully,

M. AL-HADAD & CO.

Paramus, New Jersey 07652

Dear Mr. Drislane:

Thank you for your letter of April 13th explaining the status of our order for prints which was placed through Mr. Latorraca on March 24th. We have since received confirmation from Mr. Latorraca that the FMSI prints were received and sent out.

Unfortunately, we are presently undergoing the pains of transfer from New York to Denver, just as you must have in your move from New York to Paramus, New Jersey, and consequently, much of our communications are somewhat delayed. Please accept our apologies. In the future we will write directly to your new office location in New Jersey.

Sincerely yours,

K. E. Brandt

Greenwood Plaza
Denver, Colorado 80217

Dear Mr. Brandt:

This is to reply to your letter of April 6, 1972.

I am attaching a copy of the earlier letter that you had sent requesting us to send prints to Mr. Latorsaca in New York. By copy of the attached invoice we sent these prints to Mr. Latorraca on March 24, 1972.

Assuming that these prints were received at Johns-Manville in New York, I would imagine that Mr. Latorraca has already dispatched them to Caracas, Venezuela.

Unless I hear further from you, I will consider this order closed.

Sincerely,

FRICTION MATERIALS STANDARDS INSTITUTE

I think these were sent on March 24, 1972 chrftpm #283 To Mr. Domenic LaTorraca New York office

April 6, 1972

Friction Materials Standard Institute
370 Lexington Avenue
New York, N. Y. 10017

Gentlemen:

In March we wrote to you asking that you send our Venezuelan affiliate, Manufacturas Multiples S. A., blue prints for the following drilling pattern for brake blocks 4317 G, and 4358 D.

It is possible that during our move from New York to Denver, the letter could have been misplaced and never. Therefore, we are requesting that you send the above blue prints to:

Mr. Rafael Arnal Olivo
Manufacturas Multiples S. A.
Apartado de Correos 62.185-Chacao
Caracas, Venezuela.

Your prompt attention to this matter will be greatly appreciated.

Very truly yours,

K. E. Brandt

New York, NY 10017

Gentlemen:

We have been supplying our Venezuela affiliate, Manufacturas Multiples S.A., with FMSI prints for a number of years. In the past, we have requested, by phone or mail, that the prints be delivered to our New York office and we in turn, would mail them to Venezuela. Now that our company is relocating in Denver, Colorado, it would be more expeditious, in addition to eliminating the double handling, if you could mail requested prints directly to Manufacturos Multiples S.A. Their mailing address is:

Apartado de Correos 62.185 Chacao
Caracas, Venezuela
Attn: Mr. Rafael Arval Olivo

Any charges, including mailing costs (air mail), should be sent to Johns-Manville at our Denver address. I trust that this arrangement will be satisfactory with you.

At this point, we would like to order the following FMSI print, to be sent to Manufacturos Multiples:

Clutch Facing Print #1003-D.

Sincerely yours,

K. E. Brandt
