Mr. S. Kwok
Central File - Tor
Dr. J. Vingillis

Mr. Giacomelli

The attached air sampling report indicates the results of air sampling for asbestos carried out by Mr. T. Parco, Occupational Health Technician.

Comments

1. In Ontario the guideline for Occupational exposure to Chrysotile asbestos is 2 fibres greater than 5 μm in length per cubic centimetre (cc) as a time weighted average.

2. All samples are below the Ontario guideline.

P. McHugh, M. Sc.
Consultant
Occupational Hygiene

Ontario Ministry of Labour — Occupational Health Branch
