DOC#: RBM103

DOCUMENT DESCRIPTION: Letters between Raybestos-Manhattan and Johns-Manville

Bridgeport, Conn.

Jan. 2, 1935.

Mr. Vandiver Brown, Attorney,
Johns-Manville Corporation,
New York City.

Dear Mr. Brown:

Thank you for your letter of Dec. 24.

Both Mr. Simpson and myself feel quite safe in leaving the approval of the report in your hands. I do think that Mr. Hobart made some excellent suggestions in his letter of Dec. 15, and hope that Dr. Lanza will give a lot of consideration to the comments.

I take it for granted that when this article comes off the press, the Metropolitan Insurance Company will see that you get copies of it, in which event, we certainly would like one for our files.

Yours very truly,

Secretary.

Re: Mellon Institute of Industrial Research
Symposium on Dust Problems

Dear Mr. Judd:

As I indicated to you over the telephone this afternoon, I am enclosing a copy of a memorandum I prepared for Mr. Lewis H. Brown regarding my trip to Pittsburgh last Tuesday, January 15th, to attend the Symposium on Dust Problems held under the auspices of the Mellon Institute of Industrial Research.

Very truly yours,

Vandiver Brown

January 30, 1935.

Mr. Vandiver Brown, Attorney,
Johns-Manville Corporation,
New York City.

Dear Mr. Brown:

Both Mr. Simpson and myself have read your report on your trip to Pittsburgh for the purpose of attending the meeting held at the Mellon Institute.

It is our feeling as a Corporation, that we hardly need to go to the additional expense of joining the group, who are to make use of the services of the Mellon Institute, for the reason that we have a pretty definite program which yourselves and ourselves are following. Of course there is the angle of getting as many of the industries interested as possible in order that proper legislation may be enacted, but feel that we could determine what is best for our own industry.

By the way, it was only today that Mr. Simpson made the suggestion that possibly the time is ripe to try and get the Asbestos Institute, or at any rate, as many of the manufacturers in the industry, interested. Personally, I am afraid that we will have to make a little more progress before we can go to them as a whole, but am putting this question up to you, as I am wondering what your re-action will be in the matter.

Yours very truly,

General Manager.
