I received a call from a Miss Caroline Chandler of the U. S. Bureau of Commercial Fisheries, 1451 Green Road, Ann Arbor, Michigan 48104.

They are studying pollutants in Lake Michigan and believe they have found PCB's. They have also read Jensen's & Widmark's paper.

Can you please send them samples of Aroclor 1221, 1232, 1242, 1254 and 1260, together with a bulletin on Aroclors? The samples should be addressed to Dr. Reinart at the above address.

Thank you.

Cumming Paton
