Hi Todd,

Thank you for sending this list. It is helpful. Travis Deti sent the following message regarding the agenda for this meeting:

“The WMA group would like to block the first 90 minutes to discuss NEPA and the product that Administrator Benevento asked the group to pull together in February. The document should be complete in the next couple of week and we will send to you and your folks for review by the end of May.

For the second half of the meeting, the group would like to review outstanding air issues, including Region VIII exceptional event practices and the PQAQ program. State regulators would probably an asset to this meeting, as well.”
– Travis Deti

Martin Hestmark with Region 8 suggested that Nancy Vehr be included in this meeting for the exceptional events discussion.

Thanks,

Patrick Davis

Hi Todd,

The Wyoming Mining Association is offering to convene a smart sectors round table on Thursday, June 28 from 1:00 to 3:00 p.m. in Cheyenne. Please consider if a member of your staff should attend. Also, do you have meeting space available for meetings like this in Cheyenne? If so, who should I contact?

Thanks,

Patrick Davis
