Dear John et al.

As you know, our meeting with you tomorrow has been moved and consolidated with other offices on Wednesday, April 9 from 11am-12:30pm in EPA North (Room 4045). Attached are copies of our revised consolidated slides we plan to use on Wednesday, as well as an analysis of how our rules of greatest concern (including air rules) violate the principles that President Trump established for rescinding unlawful regulations under Executive Order 14219 and other EOs.

We have a strong showing of about 30 attendees who have expertise in how pulp, paper and wood products mills are affected by regulation.

We look forward to seeing you. If you have any questions, please let us know.

Thank you,

Paul

Subject: Materials for AF&PA Meeting with EPA/OLEM Wed, April 9, 11:45am

Dear John et al:

Our members are very much looking forward to meeting with you and the EPA/OLEM team on Wednesday, April 9 at 11:45am in EPA South, Room 3146. We have a strong showing of about two dozen attendees who have expertise in how pulp, paper and wood products mills are affected by regulation. Attached are copies of our slides we plan to use, as well as an analysis of how our rules of greatest concern violate the principles that President Trump established for rescinding unlawful regulations under Executive Order 14219 and other EOs.

As you will see, our slides focus on: (1) the CERCLA Listing of PFOA/PFOA, and (2) an ongoing analysis of the *Loper Bright* regulatory framework (including a technical case study of the CERCLA Listing, PFAS MCL, and PM NAAQS). We also have included in an Appendix to the slides some supplemental background material related to the CERCLA listing and the beneficial land application of paper mill residuals.

Zad: If there will be any other EPA attendees at the meeting, I would appreciate it if you could forward these materials to them.

If you have any questions in the meanwhile, please let us know.

Thank you for the opportunity to meet with you.

Best regards,

Paul
