Dear Mr. Berry,

As a member of the faculty of the College of Medicine of the University of Cincinnati, I have been supporting the educational activities of this country with such contributions as I could make for many years. Since my retirement, almost ten years ago, I have continued on a somewhat more modest basis, especially, to the formal education of black students and especially in medical colleges, where, I know, the needs are very great.

I am in no position at present to make any significant contribution toward the Cincinnati effort, but in due course, early in 1978, I shall renew, as well as I can, those made to specific institutions.

Cordially,

RAK:sjh
