PLAINTIFF'S EXHIBIT

MON-2948

Tony,

7-15-77

Talked with Leonard Schwab, and he informed me that an 8 hour program is being presented at this time to all riggers. This program covers the care and use of slings. Leonard, does plan to follow up on this item through craft supervision and future craft safety meetings.

I talked with Jeff and they have been testing the pellets for the past 2 months. They are aware of the problem. He advised that I should on a regular basis every 2 weeks or sooner when contaminated they are required into the methods that may be available. Camps should keep away from the field in a designated area. Jeff said they will keep [illegible]
