Mr. Paul E. Grindrod
Oscar Mayer & Co.
P.O. Box 1409
Madison, Wisc. 53701

Dear Sir:

As Secretary of the Vinyl Division, SPE, I hope you can help me. One of our Development Scientists has asked for the following reference:

J. A. Brink and C. N. Dougald, "Air Pollution Abatement in Plastic Operations," SPE, Vinyl Division Symposium, Georgia Institute of Technology, Atlanta, 2-11-71.

We have the Lecture Notes from this Conference, but the above paper is not included. I also checked the SPE roster, but the authors are not listed. Can you give me any help in locating this paper?

Very truly yours,

B.F. GOODRICH CHEMICAL CO.

Jan Kidder

(Mrs.) Jan Kidder
Librarian

TO JOE DARBY FROM { PAUL GRINDROD

Joe - Can you help me out on this - I understand from Elliot Linsky this was a paper given by Monsanto on trapping plasticizer fumes in a filter system designed by Monsanto and installed at GAF in Pennsylvania - appreciate your help.

Best regards
Paul
