

P. Please add to reprint list

THE NATIONAL SUGAR REFINING CO.

129 FRONT STREET, NEW YORK CITY

March 21, 1940

Professor Robert A. Kehoe
College of Medicine
University of Cincinnati
Cincinnati, Ohio

Dear Dr. Kehoe:

I know that my friend Dr. Merrill, of United Drug, was interested in your work on lead and I heard your presentation before the National Meeting of Cercal Chemists in Cincinnati. I am therefore prompted to ask if I could be favored with a reprint covering lead tolerances in the human system, as we are particularly interested in general consideration of lead in some of our products.

I trust this request is not too much of an imposition and I assure you of my great appreciation for anything that you will be able to do.

Very sincerely yours,

NATIONAL SUGAR REFINING CO.
