Hannah,
Hope summer is treating you well and that you're maybe even getting a break. Let me just start by thanking you and all your colleagues for the help on our BUILD grant. It was huge for our district and will literally solve one of the biggest problems in the greater Sacramento area.

I was wondering in follow-up if you could give me a bit of information on the grants. How many BUILD grants requests were submitted, how many were granted and what was the average grant size? I'm asking because it would help us to explain how this process to local audiences. This is not a rush, but it would be nice to have in the next week or so if that's possible.

Thanks again for all you do!

Subject: BUILD Grant Application for PCTPA - Rep. Kiley

Hannah,
Hope all is well as our DOT friends head into one of the busiest travel weekends of the year. Some months ago, our office had reached out to see if we could expedite a favorable decision on this pending grant. The grant aspires to help alleviate severe traffic congestion at the largest cloverleaf/intersection in our region – the SR65/I80 intersection in Placer County (suburban Sacramento). The area is experiencing rapid growth and is critical to the economic health of our district.

When we had previously reached out on this grant, the Department was still settling in after the appointment of Sec. Duffy and asked for more time to review the request. It was suggested that a decision could be reached around May or June. 😊

Since we're getting close to that date, might you be able to see if we can get this moved along? It's really impossible to overstate how important this project is to the boss and our district.

Thanks in advance for any help you can provide and I hope you have a great weekend!
