

cc Jack Wadling.

659th Meeting: July 18, 1963

Sheet Metal Workers/Asbestos Workers-Iron Workers: Jurisdictional dispute over installation of metal lagging, basic oxygen furnace precipitators hoppers and ducts, Ford Motor Company basic oxygen furnaces Rouge Plant, Dearborn, Michigan, Universal Fabricated Products contractor. The Board decided: The work in dispute shall be assigned to a composite crew of sheet metal workers and asbestos workers.*

* These actions of the Joint Board were predicated upon particular facts and evidence before it regarded each dispute, and shall be effective on these particular jobs only.
