

section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that at least one sprinkler be installed above each electrical control.

2. Petitioner states that providing a sprinkler over the electrical belt starter combination not located in the belt entry would result in a diminution of safety to the miners because it would increase the potential of electrical shock.

3. As an alternate method, petitioner states that:

a. All belt starter combinations will be properly ventilated with the intake air coursed directly into the return aircourse;

b. The belt starter combinations will not be located in belt entries but will be located at least two feet away from any combustible materials and in entries adjacent to the belt entries. The area will be well rock-dusted;

c. The belt starter combinations will be housed and fully enclosed in fireproof steel housings;

d. Every belt starter combination will be provided with at least one portable ABC type dry chemical fire extinguisher and at least 240 pounds of rock dust;

e. Each belt starter combination will be provided with under-current, over-current and short-circuit protection to insure the integrity of the electrical components; and

f. Each belt starter combination will be inspected as part of the pre-shift examinations, and will be tested by a qualified person on a weekly basis to assure safe operating conditions.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before July 21, 1986. Copies of the petition are available for inspection at that address.

Dated: June 12, 1986.

Patricia W. Silvey,
Director, Office of Standards, Regulations
and Variances.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Agency Information Collection Activities Under OMB Review

AGENCY: National Endowment for the Arts, NFAH.

ACTION: Notice.

SUMMARY: The National Endowment for the Arts (NEA) has sent to the Office of Management and Budget (OMB) the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

DATE: Comments on this information collection must be submitted by July 2, 1986.

ADDRESSES: Send comments to Ms. Judy McIntosh, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, NW., Room 3208, Washington, DC 20503; (202-395-6880). In addition, copies of such comments may be sent to Ms. Marianna Dunn, Endowment for the Arts, Administrative Services Division, Room 203, 1100 Pennsylvania Avenue, NW., Washington, DC 20506; (202-682-5464).

FOR FURTHER INFORMATION CONTACT: Ms. Marianna Dunn, National Endowment for the Arts, Administrative Services Division, Room 203, 1100 Pennsylvania Avenue, NW., Washington, DC 20506; (202-682-5464) from whom copies of the document are available.

SUPPLEMENTARY INFORMATION: The National Endowment for the Arts requests OMB approval of the Application Guidelines and Supplemental Information Sheets Listed below:

Arts in Education Application Guidelines FY 87/88.

Purpose: Application for benefits.
Frequency of Collection: Annually.
Respondents: Nonprofit institutions and state or local governments.
Use: Guideline instructions and applications elicit relevant information from nonprofit organizations, state arts and local arts agencies and regional organizations that apply for funding under specific Program categories. This information is necessary for the accurate, fair and thorough consideration of competing proposals in the peer review process.

Estimated Number of Respondents: 228

Estimated Hours for Respondents to Provide Information: 3,254

Peter J. Basso,
Deputy Chairman for Management, National
Endowment for the Arts.
