

NI 5020

THE ASSOCIATED ETHYL COMPANY LIMITED.

LIST OF MEDICAL PAPERS

<u>Index</u>	<u>Title</u>	<u>Date of Issue</u>	<u>No. of copies</u>	
1.	Exhaust Gases from Engines using Ethyl Gasoline. (Reports on investigations) Dept. of Interior, Bureau of Mines	December 1924	10	
2.	A study of the possible public health hazards arising from the use of Tetraethyl Lead in the automobile. F.B. Flinn	May 1925	2	
3.	On the Toxicity of Tetraethyl Lead and Inorganic Lead Salts. Kehoe	March 1927	1	+
4.	Experimental studies on the effect of Ethyl Gasoline and its combustion Products. U.S. Bureau of Mines	1927	1	2
5.	Minutes of Evidence taken before the Departmental Committee on Ethyl Petrol	1928	4	
6.	Study of the health hazards associated with the distribution and use of Ethyl Gasoline. Kehoe and others	April 1928	8	
7.	The Excretion of Lead. Kehoe & Thamann	April 1929	8	
8.	Final Report of the Departmental Committee on Ethyl Petrol	1930	1	
9.	The behaviour of lead in the animal organism II Tetraethyl Lead. Kehoe & Thamann.	March 1931	1	2
10.	On the normal absorption and excretion of lead. Kehoe and others	September 1933	1	
11.	<i>Problems in handling ethyl lead as ethyl benzene - not safe</i>			
12.	<i>Hazards in the handling of ethyl lead as leaded gasoline - not safe</i>			
13.	Normal absorption and excretion of lead. Kehoe and others	January 1935	4	2
14.	<i>The occupational lead exposure of men engaged in mixing ethyl lead & gasoline</i>			
15.	(a) Tetraethyl lead intoxication and poisoning by relative compounds of lead. Machle	August 1935	2	2
	(b) Tetraethyl lead poisoning Kehoe			
16.	Quantitative spectrographic determination of lead in biological material. Cholak	September 1935	11	4
	<i>Other methods complete through Bamford & Busby 1942</i>			
14.	The quantitative spectrographic determination of lead in urine. Cholak	1935	5	420
15.	An investigation of the Morbific Properties of Ethyl Gasoline. Gerhand Lind	-	19	
16.	Experimental studies on the ingestion of lead compounds. Kehoe and others	November 1940	1	2

Copies sent July 1946

KE 0307367

terior Bureau of Mines
of the possible public health
arising from the use of Tetra-
in the automobile. F.B. Flinn

May 1925

2

On the Toxicity of Tetraethyl Lead and
Inorganic Lead Salts. Kehoe

March 1927

1

4

Experimental studies on the effect of
Ethyl Gasoline and its combustion Products.
U.S. Bureau of Mines

1927

1

2

Minutes of Evidence taken before the
Departmental Committee on Ethyl Petrol

1928

4

A Study of the health hazards associated

with the distribution and use of Ethyl
Gasoline. Kehoe and others

April 1928

8

The Excretion of Lead. Kehoe & Thamann

April 1929

8

Final Report of the Departmental Committee
on Ethyl Petrol

1930

1

The behaviour of lead in the animal

organism II Tetraethyl Lead. Kehoe & Thamann. March 1931

1

2

On the normal absorption and excretion
of lead. Kehoe and others

September 1933

1

*Problems in handling ethyl lead and ethyl leaded not safe
Hazardous in handling of ethyl lead and leaded not safe*

June 1934
May 1938

4

2

Normal absorption and excretion of lead.
Kehoe and others

January 1935

4

4

The occupational lead exposure of men engaged in refining ethyl lead & gasoline
Tetraethyl lead intoxication and poisoning
by relative compounds of lead. Machle

August 1935

2

2

Tetraethyl lead poisoning Kehoe
Quantitative spectrographic determination

September 1935

1

(b) eth
The quantitative spectrographic determination
of lead in urine. Cholak

1935

An investigation of the Morbific Properties
of Ethyl Gasoline. Gerhard Lind

January 1936

19

Experimental studies on the ingestion of
lead compounds. Kehoe and others

November 1940

1

Report on the Potential Hazard from the use
of Leaded Fuel in Army Field Range M-1937

June 1941

1

Methods for the purification of water after
its transportation and storage in cans, drums,
and tanks that have been employed as containers
for leaded gasoline.

December 1942

5

Kettering Lab. of Applied Physiology, Cincinnati

<u>Index</u>	<u>Title</u>	<u>Date of Issue</u>	<u>No. of copies</u>
19.	Occupational Lead Exposure and Lead Poisoning. American Public Health Association	1943	3
20.	Lead Poisoning Symposium. Journal of Industrial Hygiene & Toxicology	1943	1 2
21.	The acute effects of cumene vapours in mice. Industrial Hygiene Research Laboratory	October 1944	1
22.	Methods of determining lead in air and in biological materials. American Public Health Association	1944	1
23.	Gasoline Dermatitis: Machle & Zwicky		5
24.	Gasoline Intoxication - Wochle		4
25.	Effects of carbonic acid on Relative lead absorption 1943		4
26.	Plasma - cell partition of lead (Bamford) 1942		4
27.	Lead absorption and lead poisoning and clinical H.A. 1942 (Hahn)		4
28.	Concentration of Trace metals in drinking water and distribution 1944		4
29.	Spectrochemical Study of Normal Ranges of Concentrations of Certain Trace metals in Biological material 1943		4
30.	An Appraisal of the lead hazards associated with the distribution and use of gasoline containing TEL		2
	I these are the best copies available		4
	II none of these are now available
