## This month's FREE Literature

### AIR CONDITIONING

- 1 Direct drive blowers with or without speed control for heating, cooling and ventilating equipment. Two-color, 4-page brochure. Photos, dimensional drawings, performance curves, energy data. Morrison Products, Inc. 16811 Waterloo Rd. Cleveland 16, Ohio.
- 2 Liquid seals for keeping high-pressure refrigerant gas out of evaporator when liquid level in receiver drops below outlet pipe. Selection, installation, operation data. Four-page illustrated folder. Bulletin 341. Armstrong Machine Works, Three Rivers, Mich.
- 3 Dry-type panel filters for removal of airborne impurities in ventilation and air conditioning systems. Two-color, 8-page booklet. Photos, dimensional drawings, full specs, energy and performance data. Bulletin 510. Dillinger Corp. 11 Centre Park, Rochester 1, N. Y.

### BOILERS & AUXILIARIES

- 4 Steam generators and allied equipment in great wide range of sizes, pressures and temperatures for power, process and space heating. Two-color, 16-page booklet. Design drawings, photos, brief summaries of salient features. Bulletin G. B-165. Union Iron Works, Erie, Pa.
- 5 Shop-assembled Type II water-tube boiler in ten standard sizes ranging from 500 to 50,000 lb steam per hour. Two-color, 4-page folder. Photos, dimensional drawings, full specs. Bigelow Co. New Haven 5, Conn.
- 6 Orifice meter with 17 calibrated orifices for accurate selection of correct rate of flow for any type or size of boiler and any water condition. Two-color, 4-page illus folder. Madden Corp. 1815 Morse Ave. Chicago 38, Ill.
- 7 Refractory products for critical areas in heat and power boilers. Two-color, 16-page booklet. Photos, dimensional and sectional drawings, detailed specs, energy data. Norton Co. Refractories Div. New Bond St. Worcester, Mass.

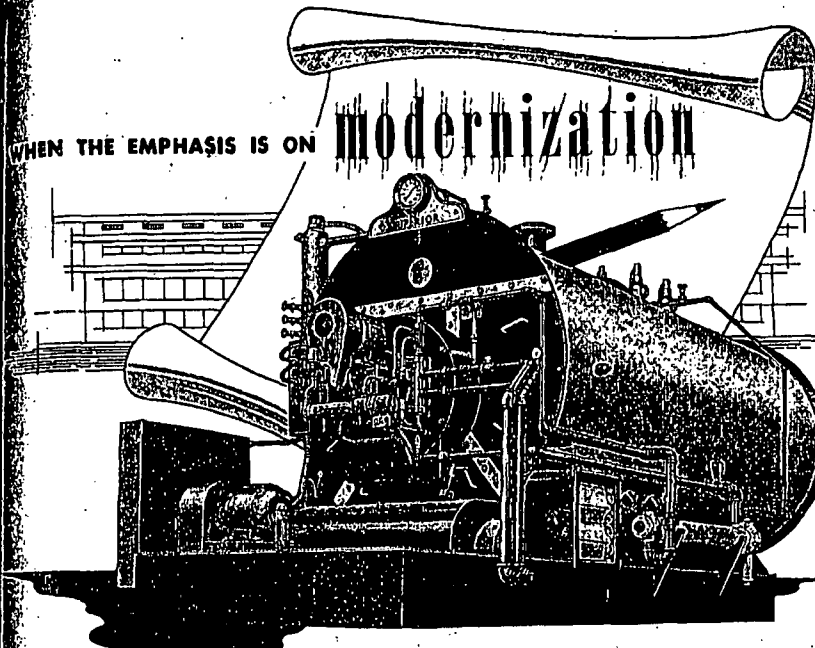

### CONTROLS, ELECTRICAL & MECHANICAL

- 8 Key switches, impulse devices, switch-board lamps, jacks and caps and other control devices. Two-color, 16-page catalog. Photos, diagrams, specs, general data. Catalog 4015-D. Automatic Electric Co. 1633 W. Van Buren St. Chicago 7, Ill.
- 9 Packaged motorized control unit and other automatic combustion controls for gas or coal-fired boilers. Four-page, 4-color folder. Photos and installation diagrams. Bulletin C-101. Reliance Instrument Mfg. Corp. Glen Cove, L. I., N. Y.
- 10 Electronic controls for heating, ventilating, air conditioning and snow melting. Two-color, 4-page booklet. Photos, diagrams, application and installation data. Barber-Colman Co. Rockford, Ill.
- 11 Combustion controls for coal, oil and gas systems—master regulators, draft regulators, fuel-air ratio controllers, gas pressure, power units and robot-eye photoelectric fuel-air ratio controllers. Two-color, 16-page folder. Photos and installation sketches. Standard Instrument Corp. 880 Fifth Ave. New York 1, N. Y.

### ELECTRICAL EQUIPMENT

- 12 Technical data book on rubber-insulated power cables for use up to 35,000 v. 128 pages 60¢. Complete technical information, curves of detail drawings, application and terminating high-voltage, rubber-insulated cables. OK-1675. Okonite Co. Passaic, N. J.
- 13 Hydraulic magnets overload relay for protecting electrical equipment. Two-page folder. Photos and installation sketches. Standard Instrument Corp. 880 Fifth Ave. New York 1, N. Y.

(Continued on page 54b)

## CUT STEAM COSTS WITH SUPERIOR STEAM GENERATORS

### LET'S FACE IT!

Fuel, labor and maintenance are the big elements of steam cost. They completely overshadow wiring. In cost of equipment. Fuel costs are higher, wages are climbing... and surveys are obsolete... while competition in almost every field is keener. If you are looking for opportunities to cut operating costs, talk with a Superior engineer. Write for Catalog 500.

Complete, compact, and efficient, SUPERIOR Steam Generators are the easiest and quickest means to boiler room modernization. Shipped complete after factory tests which guarantee more than 80% thermal efficiency, SUPERIOR Steam Generators are designed for long-run economy, and backed by undivided responsibility.

Installation is simplified for speed and economy... requiring no special foundation, no expensive chimney other than a vent for exhaust gases... puts steam where used, eliminating long steam lines. Compact design saves space and construction costs.

Fully automatic operation with any grade of oil or gas assures maximum fuel economy with minimum supervision. Ample heating surface (min. 5 sq. ft. per b.h.p.) assures operation at capacity without overfiring. Built-in induced draft makes boiler rooms cleaner, quieter, and safer.

Modernize with a modern SUPERIOR Steam Generator.

For performance you can BANK on

SUPERIOR COMBUSTION INDUSTRIES INC.  
TIMES TOWER, TIMES SQUARE, NEW YORK 36, N. Y.
