

April 17, 1953

Dr. Leroy U. Gardner,
Saranac Laboratory,
7 Church Street,
Saranac Lake, N.Y.

Dear Roy:

I have your letter of April 14th, with a carbon of your letter to Dr. Knight. I do not think this is going to make any trouble. Perhaps it will work out all right. My chief concern is that it does not get you in Dutch with the people for whom Don has been making the studies in Michigan. Down in Miami, they have so many troubles that one more or less will probably not make much difference. I shall talk to Dr. Knight and straighten him out on the subject if necessary.

In the meantime, I commend the attention of yourself and Don to some of the excellent products that are being manufactured by our local breweries, which, when chilled to the right temperature, takes the curse off a lot of things.

Sincerely yours,

A. J. Lanza, M.D.
Assistant Medical Director
