~~###~~
Joan, review tests with
Rose + Fletcher re
values — B.

Dear Joan:

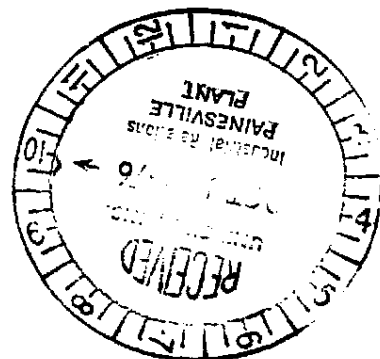

I'm enclosing copies of the new form of blood reports as promised. The ones received by you on your employees will be much more legible as these are Zerox copies of an actual report.

Please note that abnormal results are "flagged" by a solid black square in the graph area, showing the result in its relation to what is considered to be the normal range. The GGT test will be filled in at bottom of the report.

The tests that I have "X"ed are ones that were on the SMA-12 report, to give you an idea of which test results will be added from now on. If Dr. Fletcher or Rose have any question, please have them call Ted at the Medi-Com Lab at 791-7900.
