Dear Dr. Rall:

Because the Mount Sinai School of Medicine has recently been awarded a \$2.9 million grant by the National Institute of Environmental Health Sciences for the establishment of an Environmental Health Sciences Research Center, I thought you might be interested in the attached transcript of a recent speech by Dr. Irving J. Selikoff on the subject of asbestos and health and also a copy of a letter of correction sent to Dr. Selikoff by Drs. H. C. Lewinsohn and S. Holmes, whose work was misinterpreted consistently by Dr. Selikoff in his presentation.

Sincerely,

Matthew M. Swetonic
