800 N. Lindbergh Blvd.
St. Louis, MO 63166

Dear Mr. Weber:

Thank you for your February 28 letter. The United States Supreme Court has declined to make a decision on the New Jersey law that prohibits wastes being sent into the state and has sent it back to the New Jersey courts to be reconsidered in light of PL 94-580 which recommends a regional, rather than a state approach, to waste disposal.

In the past, we have also been informed by the New Jersey Department of Environmental Protection that the original intent of the New Jersey law was to prohibit wastes coming into New Jersey that were going to be dumped in or on the ground and not to prohibit material from coming into the state to be incinerated. Based on the above, we feel that we shall be allowed to continue to import wastes for incineration at our Bridgeport, New Jersey plant.

If you would like further clarification, do not hesitate calling me.

Sincerely,

William B. Philipbar, Jr.
President
