Attention: Mr. John Minott

Subject: Our Quotation P9-0276

Gentlemen:

In accordance with your telephone request of yesterday, we are pleased to give you the estimated cost on a steel vessel lined with PYROFLEX and Acid Brick, suitable for handling EDC.

Tank Size - 84" O.D. x 12' long in a straight shell. The vessel to be built for 25 psig at 250°F. Vessel to have the following nozzles: two (2) 12"; one (1) 18"; one (1) 24" manhole; three (3) 2". The steel shell to be lined with 3/8" PYROFLEX Duply lining and 4 1/2" thick Acid Brick laid in PERMANITE Mortar.

All nozzles to be lined with PERMANITE Sleeves in accordance with our Bulletin TL-102.

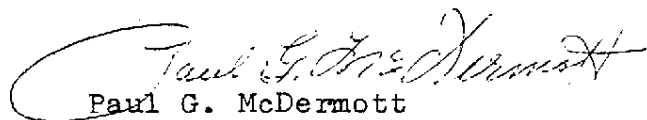

The estimated price for the vessel will be \$10,000.00 F.O.B. shipping point all materials.

Delivery on this vessel would be approximately 12 weeks after receipt of order and approval of our detail drawings.

We thank you for your continued interest in our equipment and hope we may have the opportunity to serve you.

Very truly yours,

CWH 000006844
