BECHTEL

**BUILDERS
FOR INDUSTRY**

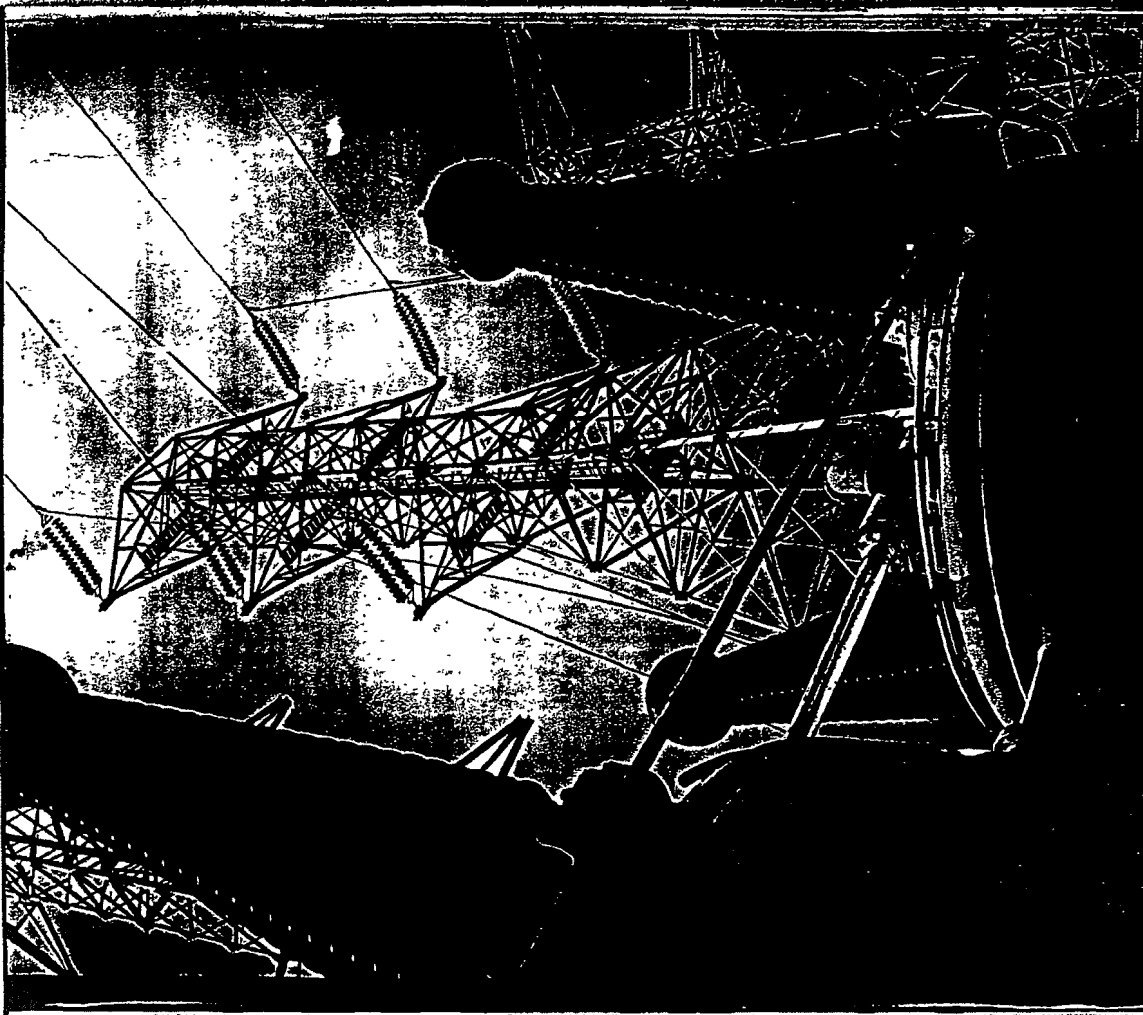

rowing with American Industry—and helping American Industry to grow—Bechtel Corporation enters its second half century of outstanding engineering and construction service.

From modest beginnings concentrated in the west alone, expansion has been worldwide. Today, Bechtel planned, Bechtel designed and Bechtel built industrial units are in operation in every quarter of the globe.

Bechtel engineers and construction men are justly proud of their part in effective development of the nation's industrial and natural resources which have created American living standards—highest in world history. To sustain and enhance these standards—while improving the lot of free peoples everywhere—is the vital task to which our energies are dedicated.
