Mr. Don Hanna
Industrial Commission of Ohio
Columbus 15, Ohio

Dear Mr. Hanna:

In reading the copy of your letter of Oct. 27 to the Medical Department of the Industrial commission in the Averill H. Bayliss case, you mention that the petrographic analyses were made by Mr. Downs Schaaf, but in order to keep your records straight I want to tell you that the petrographic analyses were made by Dr. J. Otis Everhart of Ohio State University but the chemical analyses were made by Mr. Schaaf.

Yours very truly,
THE IRONTON FIRE BRICK COMPANY

C. E. Bales
Vice President
