DOC#: QAMA061

DOCUMENT DESCRIPTION: Letter to Dr. Vorwald from Ivan Sabourin RE Epidemiological Survey. Cancer and Asbestosis

IVAN SABOURIN
AVOCAT

MONTRÉAL, March 19, 1952.

Doctor Arthur Vorwald, MD.,
Director of Research,
Trudeau Laboratories,
SARANAC LAKE, N.Y.

Dear Arthur,

Re: Epedemiological Survey.
Cancer and Asbestosis.

Could you let me have the results?

According to plan the results were to be known within six months after starting time.

As the plan has been going on for some thirteen months, my clients are insisting for a full report. You would oblige immensely in giving me necessary data.

Best regards to Madge and yourself

Ivan Sabourin.
