Subject: COVID coating question

Hey Mandy,
I hope all is well with you and your family. This is quite the turbulent time.

I have a situation that's somewhat unusual. It appears GM is launching a new HVAC filtration system in our vehicles that will capture all kinds of allergens. The interesting thing is that our tier-one supplier (Freudenberg) has a coating that kills viruses and of note, kills COVID-19.

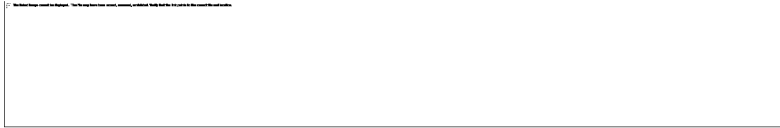

As you could expect my guys want to advertise this, but the product may need an EPA approval under the U.S. - Federal Insecticide, Fungicide, and Rodenticide Act... (I know right, who know).

Let me know if there's someone in your shop that can help guide me or if you have time to chat.

My Cell is Ex. 6 Personal

Thanks and hope to see you soon.
