A UNIQUE HERRINGBONE ASBESTOS CLOTH

R/M No. 24H120 Underwriters' grade herringbone cloth is designed to provide protection and ease of action to employees in hazardous industries. Its weight of only 1.20 pounds per square yard relieves the wearer of the cumbersome burden usually associated with asbestos safety clothing. The famous R/M "SRC" finish provides additional resistance to frictional wear. Leading manufacturers of asbestos safety garments feature R/M No. 24H120 herringbone cloth. This is a typical and exclusive product of R/M research.

Creator of "Hector", the asbestos producer, Gerhard Brinkmann, the new Canadian cartoonist received national recognition during April.

Featured in a two-page spread of cartoons in WEEK-END Magazine which has a circulation of over a million copies, Brinkmann's work in the asbestos country was noted by the editors. "Today, an advertising illustrator who has had several books of cartoons published, Brinkmann lives in Granby, Quebec, from where he sets out to seek new cartoon ideas in asbestos mines, department stores and factories," the WEEKEND editor reported.
