

1 MS. TOSTANOSKI: Are you done?

2 MR. WILLIAMS: I just want to make one  
3 further point, Your Honor.

4 I will go ahead and submit a written proffer  
5 of a couple of lines of questions with supporting  
6 materials for your review at a later time for  
7 inclusion into the court record.

8 Thank you.

9 THE COURT: Thank you.

10 Ms. Tostanoski.

11 MS. TOSTANOSKI: Very briefly. Despite the  
12 fact that Dr. Hammar was proffered as only in the  
13 Grewe case, he did cover a number of generic issues.

14 One particularly, Mr. Ignatowski asked the  
15 doctor a question as to whether or not sand, silica or  
16 lime caused or contributed to mesothelioma. Those are  
17 ingredients only of plaster.

18 I am not aware of any exposure of Mr. Grewe  
19 to sand, silica or lime. I think that was an attempt  
20 to use him in the Vandergucht case, Your Honor.

21 And if permitted, Mr. McGowan or myself
