asbestos?

A. Later on, in the late '60s, why, the various speakers then were beginning to put asbestos forth, among other topics. The topics might have been a bronchiectasis or chronic bronchitis. I was more interested in siderosis or silicosis, so there were different things that pertained, you see.

Q. Do you recall any particular conference that you attended where illnesses of any sort, whether they be lung diseases or any other illnesses, were discussed which associated asbestos exposure with those illnesses?

A. I think the very first one that stood out would have been one of those wherein Dr. Selikoff was there.

Q. Do you recall when this seminar took place?

A. Not by any precise date.

Q. Do you recall where it was?

A. Somewhere on the east coast.

Q. Do you recall if this was in the '60s?

A. I'd say in the -- oh, somewhere between '65 and '68, but I can't give you a precise date.

Q. And was Dr. Selikoff a speaker at this meeting?
