Dear Dr. Torkelson:

This is to express our appreciation for the time taken from Dr. Otts and your busy schedule to visit Texas City and discuss the utilization of Union Carbide's VCM exposure data. Your offer to run our operator exposure data through your mortality study computer program is also appreciated.

The possibility of Union Carbide and Dow cooperating on other studies is certainly a possibility and Carbide's man to contact in this regard is Mr. Howard R. Guest at our Technical Center in South Charleston, (tel. 304-747-5481).

Again, thank you for your valued assistance and time.

Respectfully,

M. E. Eisenhour
