

MANUFACTURING CHEMISTS ASSOCIATION

1825 CONNECTICUT AVENUE, N.W. WASHINGTON, D. C. 20009 (202) 483-6126

February 8, 1974

TO: MANAGEMENT CONTACTS OF COMPANIES SUPPORTING THE
VINYL CHLORIDE RESEARCH PROGRAM

TECHNICAL TASK GROUP ON VINYL CHLORIDE RESEARCH

SUBJECT: Meeting February 14, 1974
MCA Conference Room - Washington, D. C.

Gentlemen:

We are informed that a delegation from the European producers, including Prof. Maltoni, their senior research investigator, will be in Washington February 14 and 15 for the OSHA hearing. It has been suggested that they be given an opportunity to meet with representatives of the American companies for a general discussion prior to the OSHA hearing.

Therefore, arrangements have been made for representatives from the MCA and European groups to meet February 14 in the MCA Conference Room beginning at 1:30 p.m.

Because of the limitations on space, and to keep the meeting of manageable size, each company is asked to limit its representation to one man. Please let me know who will be attending.

Sincerely,

A. C. Clark
Vice President, Technical Director
